### About us:

Located in Durham, NC, CSWC is a sex-positive, nonprofit organization that affirms all sexual orientations, gender identities, relationship structures, and consensual and pleasurable modes of sexual expression as normal and potentially healthy. We believe pleasure-based sex positive sexuality should be the norm and that all people should be empowered to determine what healthy sexuality and sexual expression look like for them.

Diversity and inclusion are core values of CSWC. We believe that the organization is at their best when we are as diverse as the community we serve. We are committed to respecting and valuing people for who they are as individuals and to providing a positive, welcoming, and inclusive environment for all.

CSWC clinicians provide compassionate, affirming, and informed sex therapy services in a safe and supportive environment for a wide range of sex- and gender-related concerns in addition to co-occurring mental health issues. They work with individuals of all ages and backgrounds and are LGBTQ+ affirming, BDSM/kink aware, and poly friendly.

In addition to direct clinical work, our clinicians participate in individual and group supervision, including presenting case summaries and dialoguing with other clinicians, to foster learning and improve clinical outcomes.
